

OUR KEY PRIORITIES FOR 2019 – 2020

- We will enable children to **write** well (in both quality and quantity) by giving them the skills and inspiration they need. We will ensure our provision and assessment ‘catches’ them as soon as they are ready to make a leap forward with their writing.
- We will firmly establish our routines and practices for ensuring children have the time and support to respond to **feedback** so they can edit and improve their work, particularly their writing, across the curriculum.
- We will continue to foster a love of **reading**, ensuring that children get to know and discuss different authors, develop their opinions and favourites and use quality texts as a stimulus for writing.
- We will ensure that all members of Shire Oak understand what makes us **distinctive** as a church school and further develop children’s roles at the heart of our sharing and worship.
